UNM TECHNOLOGY BUSINESS PLAN LUNCH & SEMINAR

“A CleanTech Entrepreneur’s Perspective”

ABOUT DR. NED A. GODSHALL

Ned A. Godshall, President and CEO of Altela, Inc., has founded and led four high-tech start-up companies since 1995. At these companies, Godshall negotiated seed-round financing with venture capital firms and established the company’s accounting, payroll, budgeting, tax, project management, and corporate legal systems. He is one of NM’s first ‘serial entrepreneurs.’

Godshall’s most recent efforts have been with companies in the ‘clean-tech’ space: the hydrogen economy (MesoFuel, Inc.), photovoltaic solar cells (Advent Solar, Inc.), and water desalination (Altela, Inc.).

Godshall has Ph.D. and M.S. degrees in Materials Science and Engineering from Stanford University and an MBA from the University of New Mexico.
